PROFESSIONAL SUMMARY

Frontend and React Native developer with 1 year 9+ months of professional experience building responsive web interfaces, cross-platform mobile experiences and internal dashboards. Brings a strong design sense to development, creating interfaces that are visually refined, intuitive and reliable for real users. Delivered 20+ client projects at PPCROY and currently contribute across ChefKart's customer app, internal dashboard and website. Hands-on experience with React.js, React Native, TypeScript, JavaScript, REST API integrations, responsive design and modern frontend workflows.

PROFESSIONAL EXPERIENCE

ChefKart | Associate - Software Engineer

Dec 2025 - Present

Gurgaon | Onsite | Product-Based Company

- Contribute across the customer-facing mobile application, internal dashboard and website, building responsive interfaces for customer and operational journeys.
- Develop and improve mobile experiences involving bookings, visit information, wallet and payment flows, refund communication and cancellation-related user states.
- Redesigned major modules of the internal dashboard, improving visual structure, interface consistency and usability for internal team workflows.
- Implemented analytics tracking for important customer actions and contributed to frontend debugging, UI quality and mobile experience improvements.
- Received Rewards & Recognition in the Technology & Engineering category at ChefKart Townhall in May 2026.

PPCROY | Junior Web Developer

Oct 2024 - Dec 2025

Remote | Service-Based Company

- Delivered 20+ client projects across responsive websites, business interfaces and ecommerce-focused digital experiences.
- Developed responsive web interfaces using React.js, JavaScript, HTML5 and CSS3, with emphasis on clean layouts, reusable UI and cross-device compatibility.
- Built and delivered responsive websites and web interfaces using React.js, WordPress, Shopify and Webflow based on client goals, business use cases and project requirements.
- Translated design references and client requirements into polished user-facing web experiences across varied timelines and industries.

3rd Eye Lab | Associate Software Engineer Intern

Apr 2024 - Jun 2024

Hyderabad | Onsite | Internship

- Developed Levels App, a React Native mobile quiz application with category-based questions and dynamic content loading.
- Built intuitive mobile screens and navigation flows using React Native and JavaScript for an engaging learning experience.
- Completed the project ahead of schedule and delivered additional features beyond the initial requirements.
